Strategic Planning For Transportation & The Indian Reservation Roads Program

June 6, 2006 • Verona, NY

Course Summary

This one day training is designed to provide information about the Transportation & Indian Reservation Roads Programs. The session explores aspects of Planning & Land Use, Recreational Travel & Tourism, Economic Development, Transit & Health Care, Jobs, Training & Contracting Opportunities, National Performances Review & Tribal Governance Structures and ends with a Solutions session.

Who Should Attend

Individuals who would benefit from this seminar include community planners, leaders, and elected officials.

When & Where:

June 6th, 8:00 AM to 5:00 PM

Turning Stone Resort & Casino

Verona, NY

Course Goals

- Acquiring and reinforcing the underlying tools and skills needed for effective utilization of existing resources;
- Understanding the uses of existing resources in a cost effective manner, e. g. measuring organization/program performance for best practice results;
- Understanding the financial resources on hand, other financial sources available and leveraging to attain maximum benefit to the program;
- Understanding the many types of resource development and the benefit of "Strategic Planning" for optimum benefit to the programs;
- Discussion regarding the utilization of Technology to enhance all aspects of Transportation and the IRRP; and
- Through the solutions format develop a practical application for each individual to take away of an existing problem or to enhance an area in need of development.
